Secure Information Management

6707 Democracy Blvd, Bethesda, MD 20817

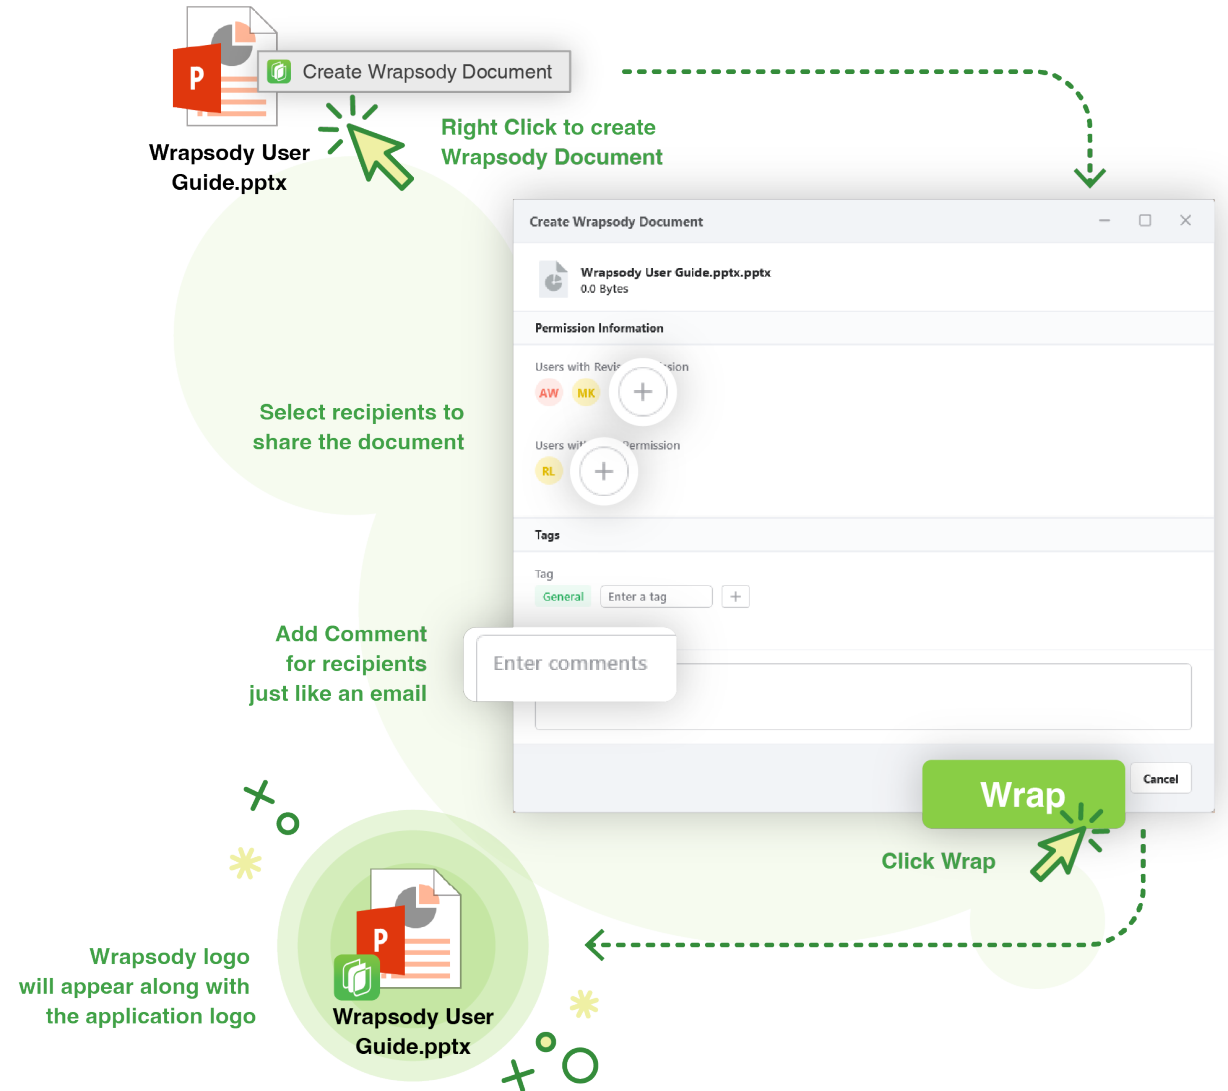

Tel: (732) 955-2333 | [www.wraposody.com](http://www.wraposody.com)

# Create and Share Secure Documents

It's as easy as sending an email! But guess what?

It's encrypted and only the recipients you selected can access the document.

Congratulations, you've stopped data breaches that can damage your Company's brand, competitive position and avoided costly regulatory fines.

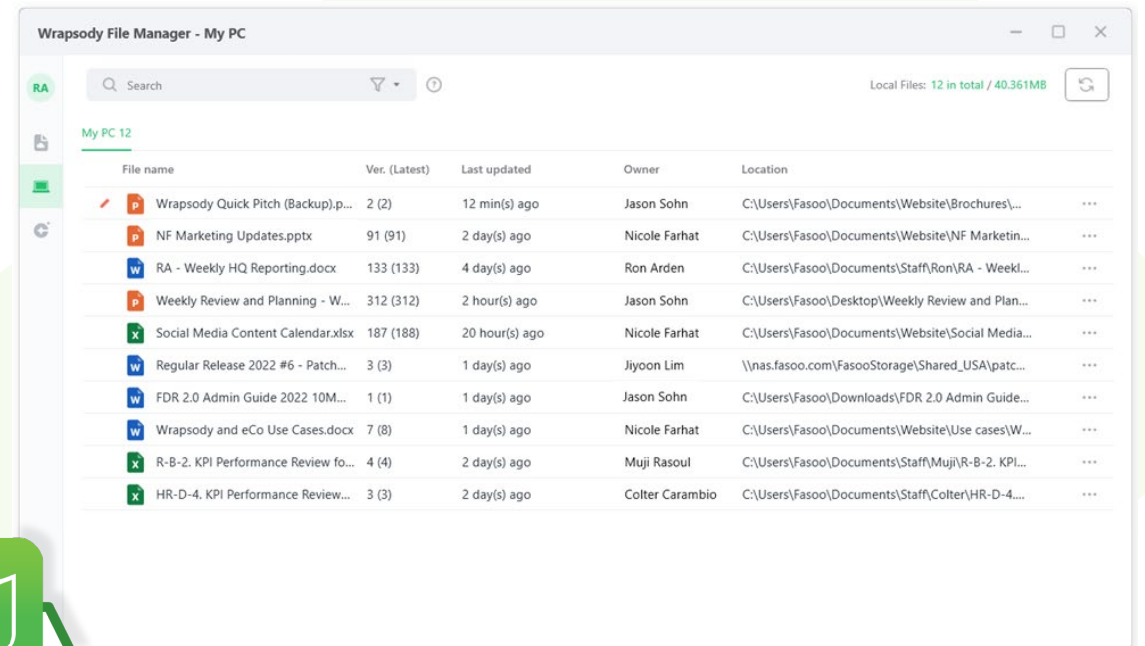

# Escape Inbox Chaos

Stop using a cluttered inbox to discover you have important documents waiting. Don't waste time searching your Inbox to find the attachment received or sent days ago.

Manage your documents intelligently. See and access every document you've touched instantly with Wrapsody's unified views.

You are now free from inbox chaos.

# Seamless Workflow

Restricted to a single repository for sensitive information that hinders collaboration? Or the opposite, too many cloud sharing apps and can't find documents when you need them?

Wrapsody frees you to find and store your documents anywhere. Encryption and a unique, persistent ID travel with your document throughout its lifecycle.

Always secure. Easy to find. Seamless workflow.

# Wrong Version. Not any more.

Download, edit and save a document locally? Or, send it to another via email? Without using a designated folder or repository, you've broken the sync connection and lost version control.

Not with Wrapsody. Save and share documents as you wish. Open the locally stored document days later and automatically see any new versions - no matter where your team members worked or saved their own versions of the document!

Wrapsody's persistent ID at work again for you.

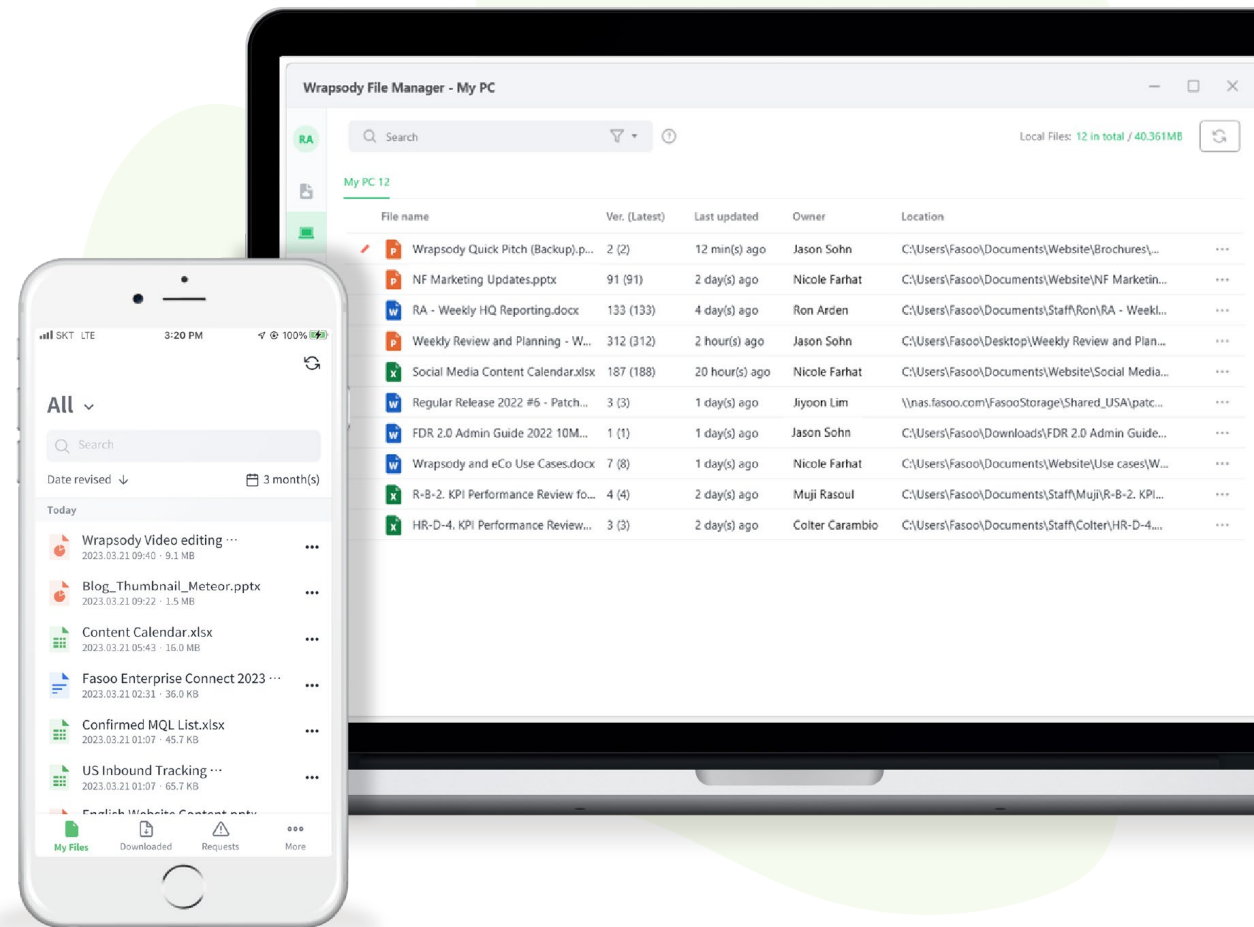

# Access Anywhere

Away from the office or on the move?

Use Wrapsody's browser to see activity throughout your organization. Search documents in any number of ways. Preview documents and act on those of immediate interest.

Experience access to all your documents while you are away.

Download our mobile app from the IOS or Android store.

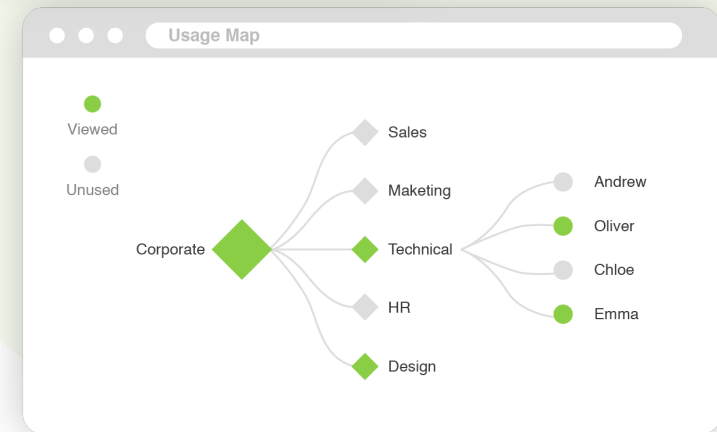

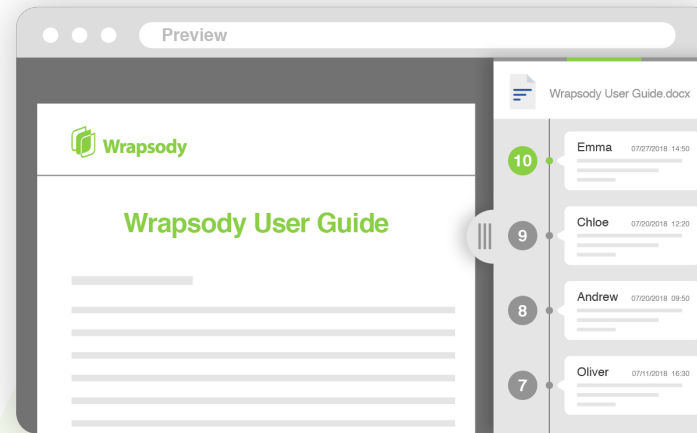

# Unlock the Value

Wrapsody works along side you gathering key information about the content's journey.

Use workflow insights to drive digital business transformations and improve processes. Timelines and usage give insights into knowledge development and the organization's engagement.

Wrapsody makes teams more efficient and frees them to unlock the full value of their organizations data.

# All of this Too?

Yes, you've done all this too!

You've implemented one of the most advanced security, compliance and threat reduction solutions available today – all by just using Wrapsody.

You've taken the liability out of using your data and can now unlock your data's value through seamless workflows and secure collaboration.

# Let's Get Started!

---

Here's what you do.

Pick an upcoming project – board meeting, monthly budget preparation, new sales presentation – and a team of 5 to 10 who are involved.

We set you up in our private cloud and you download our agent.

Take our 15 minute on-line training and you are ready to go!

Don't worry if IT catches you using Wrapsody – once they see it, they will be championing this for your entire Company!

That's how real digital transformation occurs – with you.
